PROFESSIONAL SUMMARY

Web Developer skilled in developing responsive web applications, RESTful APIs, and database-driven solutions using React.js, Node.js, Express.js, and MongoDB. Proficient in modern web development technologies, authentication systems, database design, and software engineering principles. Strong problem-solving abilities with experience building scalable and user-focused applications.

SKILLS

Technical Skills:

Languages C, C++, Java , JavaScript, SQL, HTML5, CSS3

Frameworks React.js, React Native, Node.js, Bootstrap

Tools & DB Git/GitHub, NPM, VS Code, MongoDB, MySQL

Soft Skills Problem-Solving, Team Leadership, Adaptability

INTERNSHIPS

Interned at Vigo Technoworld, Nagpur, Maharashtra

Aug 2023 – June 2024

- Developed responsive and reusable user interface components using React.js.
- Built RESTful APIs using Node.js and Express.js to support web application functionality.
- Designed and maintained MongoDB database schemas and collections.
- Implemented authentication and role-based access control mechanisms.
- Participated in debugging, testing, deployment, and performance optimization activities.
- Collaborated with development teams to enhance application functionality and user experience.

EDUCATION

- **Dhanvate National College, Nagpur, Maharashtra** *(2021-2024)*
RTMNU Nagpur University
Bachelor of Commerce (Computer Applications) **CGPA:** 8.20/10
- **Amity University, Raipur Chhattisgarh** *(2024-2026)*
Master of Computer Applications **CGPA:** 7.28/10

PROJECTS

Bike49 – Pre- Owned Two–Wheeler Online Selling and Buying Platform

Dec 2025

Developed a platform to buy,sell and exchange used bikes,scooters and EVs with verified inspections and fair pricing.

Tech Stack: React.js, Node.js, Express.js, MongoDB

- Developed an online platform for buying, selling, and exchanging used bikes, scooters, and electric vehicles.
- Built secure user registration, login, vehicle listing, and admin approval modules.
- Implemented inspection-based verification and fraud prevention mechanisms.
- Designed and integrated RESTful APIs for efficient data management.
- Developed a responsive user interface to ensure seamless experience across devices

- Built modules for user login, vehicle listing, admin approval, and inspection-based verification.
- Implemented real-time price estimation and ensured fraud prevention through verified records and structured transactions.
